

**iTAC Software Inc. Moves to New Facilities of its Parent Company  
Dürr AG and Expands**

**iTAC Software Inc. Opens New Headquarter in Southfield, Michigan**

**Montabaur, 15 March 2016** – iTAC Software Inc., a leading provider of platform-independent MES solutions, will be opening a new office and demonstration center in Southfield, Michigan, a suburb of Detroit. The move is an important part of an increased focus on expanding iTAC's presence in the North American market. The new facility is strategically located just north of the Detroit metropolitan area, positioning iTAC within the major automotive hub of North America. Its formal opening will occur in May of this year.

The new and bigger office will be located inside the North American headquarters of iTAC's new parent company, Dürr AG, which will help iTAC to leverage the powerful infrastructure that Dürr has developed in the area over many years.

The move is accompanied by the installation of a demonstration center. This new attraction will allow its visitors to get hands-on demonstrations of the complete suite of iTAC software products, including its cloud-ready MES system with its enterprise business intelligence services, real-time production dashboards and big-data processing capabilities. Visitors can get a practice-oriented overview and understanding of how iTAC's Industry 4.0-enabling solutions can help customers to truly realize the vision of the smart factory.

**About iTAC**

iTAC Software AG, an independent company of the mechanical and plant engineering group Dürr, provides Internet-enabled information and communication technologies for the manufacturing industry. Founded in 1998, the company is one of the leading MES providers in Germany. The iTAC.MES.Suite is a cloud-based Manufacturing Execution System that is used worldwide by companies in different industry sectors such as automotive manufacturers and suppliers, electronics/EMS/TC, medical technology, metal processing and energy. Additional services and solutions for the implementation of the requirements of Industry 4.0 round off the portfolio. iTAC's philosophy is connecting people, data and systems. iTAC Software AG has its headquarters in Montabaur (Germany) as well as a branch in the USA and a global partner network for sales and services. The Dürr Group is one of the

world's leading mechanical and plant engineering firms. Products, systems and services offered by Dürr enable highly efficient manufacturing processes in different industries. Business with automobile manufacturers and their suppliers accounts for approximately 60% of Dürr's sales. Other market segments include, for example, the mechanical engineering, chemical and pharmaceutical industries and the woodworking industry.
