

PROTECTIVE SCREENS

Press Release - May 2020

FRÖVI[®]

PROTECTIVE SCREENS

It is now vital that the workplace is adapted to ensure employees can maintain social distancing guidelines and limit the risk of airborne germs being transferred between colleagues.

Whether dividing individual desk space or an entire office area, our new range of protective screen solutions are designed to help keep employees safe, healthy and improve wellbeing in the modern workplace environment.

Our protective screens offer desk partitions which are quick and easy to install while improving the feeling of working in a safe environment. At the same time, they help maintain that sense of collaboration and togetherness which is so important when your team returns to the workplace.

Introducing two new screen solutions for workplace safety, Picket and Protect.

Picket is a modular screening system made with anti-microbial **Safe Felt** and it enables you to creatively divide work surfaces, allowing safe working with added acoustic advantages. Available now, in a range of six colors.

Protect is an adaptable plastic screening product that can easily be installed into any workplace. It's made with a durable easy to clean plastic material which is also recyclable when it comes to the end of its use; making Protect the perfect temporary screen solution.

our story.

Frövi is a British brand. Inspired by the distinctiveness of Scandinavian design, we had a vision to fuse this design style with Britain's renowned craftsmanship. This blend remains at the heart of the Frövi brand today.

Since 1976, we've honed our skills to produce distinctive furniture, created through the best of British craftsmanship. Every one of our new products is created in-house from the ground up. We're a team of creative thinkers, trend spotters, pattern makers, metal workers, wood crafters, seam stitchers and comfort testers.

Frövi designs and manufactures innovative furniture for social spaces, crafted to meet the growing demand for a new approach to communal areas within the workplace.

Frövi furniture is produced using a variety of materials and techniques, both traditional and innovative, to produce the distinctive Frövi style and quality. The designs boast creative use of colour and the finest of contemporary style.
