

LAUNCHING COLONY

Press Release - February 2020

FRÖVI[®]

COLONY

A bold step forward in workspace design, challenging the everyday thinking of working practices and open plan environments we have all become accustomed to.

Colony is a modular octagonal pod that can be configured into many different designs, creating a space within a space - each with their own atmosphere and community feeling.

This pioneering piece is unlike any of our other designs: it is not just a product but also a vessel for other products both old and new.

With Colony, a truly unique inspirational space can be created.

Explore the possibilities by using our online configurator.

our story.

Frövi is a British brand. Inspired by the distinctiveness of Scandinavian design, we had a vision to fuse this design style with Britain's renowned craftsmanship. This blend remains at the heart of the Frövi brand today.

Since 1976, we've honed our skills to produce distinctive furniture, created through the best of British craftsmanship. Every one of our new products is created in-house from the ground up. We're a team of creative thinkers, trend spotters, pattern makers, metal workers, wood crafters, seam stitchers and comfort testers.

Frövi designs and manufactures innovative furniture for social spaces, crafted to meet the growing demand for a new approach to communal areas within the workplace.

Frövi furniture is produced using a variety of materials and techniques, both traditional and innovative, to produce the distinctive Frövi style and quality. The designs boast creative use of colour and the finest of contemporary style.
