Construction:	17-4 Ph SS
Direct Thread:	5/8-24 / 1/2-28
Decibel Rating:	135 dB
.308 WIN	

Introducing the modular NITRO 30

The NITRO 30 is YHM's answer to the demands of today's suppressor community, and elevates the bar for today's modular suppressors.

YHM has listened closely to the wants and needs of both professional operators, and suppressor enthusiasts on the firing range.

YHM's NITRO achieves mission specific modularity by providing the operator with muzzle cap and rear cap options. The NITRO is full-auto rated and will accommodate 300 ultra mag to .17hmr. It comes with two different .30 Cal muzzle caps. The flat muzzle cap is geared towards the tactical user while the muzzle brake cap is geared towards the target shooter. The NITRO also comes with two different rear caps. The Quick Disconnect rear cap is great for rapid switching between multiple platforms while the 5/8-24 direct thread-on rear cap is for a more dedicated set-up.

Included in the Suppressor System Kit is:

- The welded suppressor body,
- Two .30cal muzzle caps,
- Two rear caps,
- Two assembly wrenches
- One Q.D. muzzle brake, in your choice of thread pitch (5/8-24, 1/2-28, 1/2-36)
- One Basofil heat resistant pouch.
- One hard sided carry case to hold all of the parts.

Pre-order your NITRO Today!

Form 3s will go out end of September

Part numbers: YHM-2100-24, YHM-2100-28, YHM-2100-36

MSRP = \$890

877.892.6533

Weight as pictured 19.7oz

Suppressor Body 13.6oz

Q.D. 3oz

Direct thread 3.5oz

Flat cap 1.6oz

Brake Cap 3.1oz

Also available is the YHM .30 Cal Adaptable Brake which comes as shown and uses the same rear caps and muzzle caps as the Nitro 30. This brake will provide you with excellent reduction of recoil and muzzle climb and is just as versatile as the Nitro 30.

MSRP \$199

OWN THE NITRO ASA LIMITED SPECIAL EDITION

YHM, in cooperation with the American Suppressor Association, will be auctioning off the first five NITRO .30 caliber suppressors. All proceeds will benefit the

American Suppressor Association.

These five LIMITED EDITION suppressors will feature the ASA logo on the suppressor and the winner of each auction will be able to choose the serial number of the suppressor. Be one of the first to own the new NITRO suppressor from YHM.

The serial number will be prefaced with "ASA-" and will contain six alpha-numeric characters of the auction winner's choosing.

(The serial number must contain at least ONE number.)
