

VISM FlipDot for Glock® MOS pistols (**VDFLIPGLO**)

Gain the maximum use from your Glock® MOS pistol with the new VISM by NcSTAR FlipDot Reflex Sight. This unique dot sight is designed exclusively to fit on the Glock® MOS system, as well as other pistol slides that have been machined to accept RMR micro dot sights. The best part about the FlipDot is the patented flip up lens system that automatically deploys to the on position with a push of a button. To turn it off simply push the lens down until it locks into place. Power by a single CR2032 battery, and constructed of hard anodized aluminum. Backed by the NcSTAR Lifetime Limited Warranty. Visit us at Booth 805 for more details.
