

## **SHILOH RIFLE MFG. – Booth 1227**

Rediscover a legend! Shiloh Rifle originally started in 1976 in Farmingdale, New York on one man's dream. To re-create the sharps rifle and to be the ONLY Company in the world whose parts interchange with the original sharps rifle and that was accomplished. Shiloh Rifle moved to Big Timber in the mid-80's where the work continued. On April 1<sup>st</sup>, 1991 the Bryan family purchased Shiloh Rifle and officially took it to the next level of manufacturing! Our goal was to increase productivity without losing craftsmanship and to eventually build our own Foundry which was accomplished in 1996. We have our own engraver who hand designs and hand engraves (not laser engraved) to add that special touch to your rifle. In 2014 we unveiled our newest addition to the Sharps family, the 1877 sharps rifle.

Shiloh Rifle is the recognized leader in the quality production and craftsmanship of the Sharps Rifle. The Sharps rifle has taken down African game along with American plains game. We are 100% American made right here in Big Timber, Montana and we will not sacrifice our Quality for quantities. When you purchase a Shiloh Sharps you not only purchase a legendary rifle, you support the principals of a way of life Americans have fought and died for over generations – self-reliance, pride and our FREEDOM. It doesn't matter who you are, everyone can own an American Masterpiece! As a family owned business we are proud to be celebrating 40years as a Company and 25 year anniversary under our ownership. Come visit our showroom. [www.shilohrifle.com](http://www.shilohrifle.com) or 406-932-4454. See us in Booth 1227
