**AGUILA AMMUNITION ENTERS SUB-GAUGE MARKET  
WITH RELEASE OF 28 GAUGE AND .410 BORE SHOTSHELLS**

**CONROE, TEXAS- January 22, 2018** – Texas Armament & Technology (TxAT) and Aguila Ammunition are proud to announce their entrance into the sub-gauge shotshell market. In addition to the current Aguila 16 gauge load, the company is excited to announce the production of 28 gauge and .410 bore shotshells.

These in-demand sub-gauge rounds are part of Aguila's new shotshell line-up. The company is known as one of the largest rimfire manufacturers in the world, and is quickly gaining recognition among shotshell shooters and hunters alike.

"Aguila shotgun shells are redefining the genre," says Patrick Thomas, Director of Sales for TxAT/Aguila Ammunition. "Our shotshells are engineered for optimal consistency and unequalled dependability shot after shot. The 28 gauge and .410 bore loads aren't offered by all manufacturers and we're pleased Aguila can meet this demand for our dealers and distributors."

Aguila's newly improved 28 gauge will be offered in 5 load sizes; 7.5, 8 and 9 shot size in 2 ¾" length, ¾ ounces, at a velocity of 1,275 fps and in 6 and 7.5 shot, 2 ¾" length, 1 ounce, with a velocity of 1,200 fps.

The .410 bore line is offered in 6 load sizes: 7.5, 8 and 9 shot sizes in 2 ½" length, ½ ounce, at a velocity of 1,275 fps, in 6 and 7½" shot, 3" length, 11/16 ounces, with a velocity of 1,200 fps, and in 00B shot, 2½" shot, ½" ounce with a velocity of 1,100 fps.

Aguila Ammunition's extensive shotshell line has something for everyone – whether the application is hunting, competition, clays, or home defense – from .410 to 12 gauge and everything in between. To learn more about where you can purchase the new sub-gauge shotshell, or more about Aguila's shotshell line visit: <https://www.aguilaammo.com>.

Shipments of both new shotshell loads begin this month. They will be available online and in dealers across the U.S.
