Non Lethal Visual Disruption

The only accessory more  
important than your handgun.

# ***CERBERUS***

Non Lethal Visual Disruption

Creates a wide over-powering beam of disruption  
that steals your target's vision.

**Disorient, delay, diffuse, disarm.**

# ***CERBERUS***

Non Lethal Visual Disruption

Evolved from the same Non-Lethal Visual Disruption tools that the DoD is currently using.

# CERBERUS

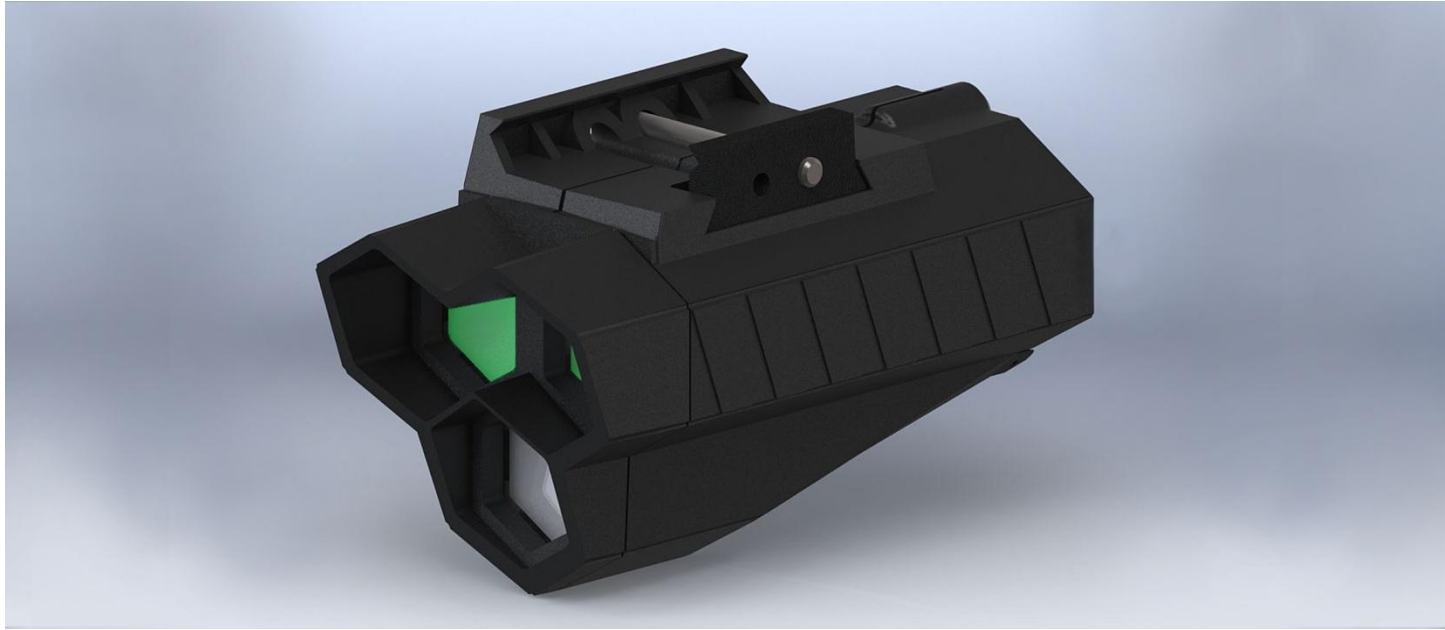

## Non Lethal Visual Disruption

Forces your target to establish their intent.  
A real threat? Or an innocent unwitting person?

# **CERBERUS**

Non Lethal Visual Disruption

Cerberus is a compact, light weight module that mounts to your handgun's accessory rail.

# ***CERBERUS***

Non Lethal Visual Disruption

Using special wavelengths and pulse rates,  
Cerberus renders your target unable to see.

# **CERBERUS**

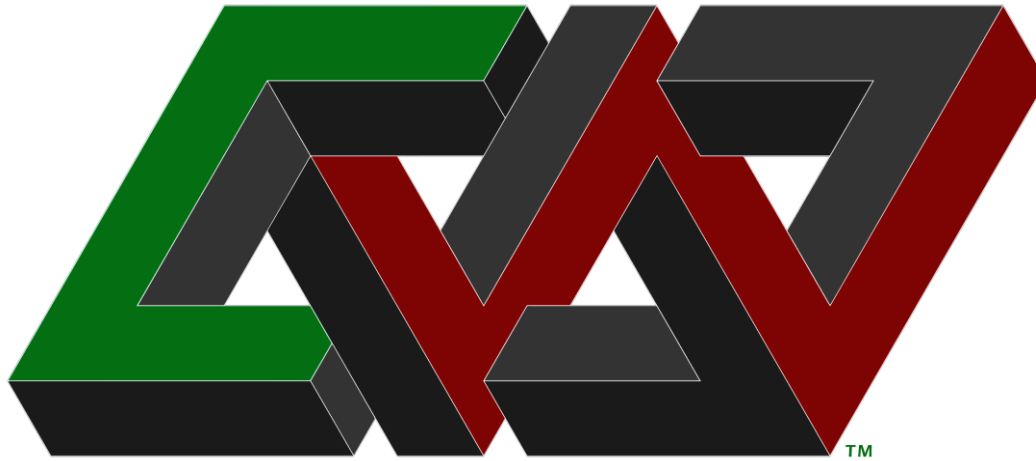

Non Lethal Visual Disruption

This provides critical time and a clear indication of how to proceed. Avert tragedy, or escalate force.
