**FOR IMMEDIATE RELEASE:** December 20, 2017

**Flint River Armory now powering firearms technology inside the new Lone Wolf Alpha Wolf  
.45 ACP Pistol Caliber Carbine**

(Scottsboro, AL) – Flint River Armory, developers of the Carbine Semi-Automatic .45ACP (CSA45) pistol caliber carbine (PCC) have teamed up with Lone Wolf Distributors from Priest River, ID to develop the next generation of PCC called the Alpha Wolf .45. This next generation weapon system uses the same gas-piston operation and rotating, locking bolt as the CSA45, but incorporates the flexibility of being Glock magazine and AR-15 buttstock compatible. That's right! You not only get the precision and reliability of the original CSA45 platform, you also get to use your favorite AR buttstock.

Flint River Armory is no longer selling the CSA45 PCC but will be exclusively making the new Alpha Wolf .45 for Lone Wolf Distributors. For more information, or for dealer inquiries, please go to [www.lonewolfdist.com](http://www.lonewolfdist.com)
