“Over the last several months I’ve been working with Caracal USA to come up with an out of the box match-ready rifle for 3-gun, 2-gun, and other action shooting type competitions. Following a discussion regarding the details of the equipment I was currently using to compete, Caracal quickly went to work. A couple of revisions later, I was very excited to see the finished product they came up with. I’m so proud to be a part of Team Caracal,” stated Gibson.

The CAR814 A2 Competition Rifle highlights include an 18” carbon fiber wrapped barrel from Proof Research, lightweight free-float hand guard, a Geissele Super 3-Gun trigger, extended magazines release, and a Minimalist butt stock.

Caracal USA will showcase the CAR814 A2 competition rifle build alongside all-new variants of the Enhanced F pistol, the CAR814 A2 direct-impingement rifle, and the CAR816 piston rifle. Each are proudly manufactured in the United States.

ABOUT TRAVIS GIBSON

Travis Gibson began his competitive shooting career in early 2006 and started to focus primarily on 3-gun in 2009. He has since achieved numerous state, national, and world titles as a 3-gun competitor. Requiring the shooter to be skilled with the rifle, shotgun and pistol is what makes 3-gun such a challenge for him. Great sportsmanship, integrity, friendliness, and patriotism are just a few of the characteristics Gibson proudly demonstrates at every event he attends.

ABOUT CARACAL USA
