New Sight with 24-Hour Illumination

Laramie, WY – January 2018 – HIVIZ Shooting Systems is excited to announce the new LiteWave H3™ Tritium Litepipe sight set for personal defense, law enforcement and military use. Now you can easily acquire your target day or night using a single sight system.

The LiteWave H3 sight combines Tritium with our HIVIZ Litepipe technology, resulting in a reliably bright sight picture in any light conditions, including no light. All steel, rugged construction ensures this sight will handle the roughest usage, making it the perfect choice for personal defense, law enforcement and military personnel. Plus our patented technology carries a 12-year tritium warranty for loss of illumination.

HIVIZ LiteWave H3 sight sets match OEM sight heights, enabling the firearm to accept the same holsters and accessories as factory sights. Sight sets area available for the following handgun models:

Glock:	9mm, 40 S&W, 357 Sig, 45, 10mm, 45 GAP, Model 42 and 43
Smith & Wesson:	M&P fullsize and compact centerfire models including M2.0, and M&P Shield in all calibers
Springfield Armory:	XD, XDM, XDS and XDE with fixed sights

MSRP \$126.00

For additional information and to see our LiteWave H3 Tritium Litepipe sight set, visit our website: www.hivizsights.com or call us at 800.589.4315.
