**FOR IMMEDIATE RELEASE**

**Camillus Develops New Line of Heavy-Duty Pruning Tools  
Designed for Hunters**

**FAIRFIELD, Conn.** (January 23, 2018) – Camillus, a brand that has been supplying the world with reliable, innovative and quality-made knives since 1876, is rolling out a complete new line of heavy-duty pruning tools, including a lopper, tree saw, branch saw and bypass shears. The new **Line of Sight™** product line is designed to clear thick brush, creating clear shooting lanes for hunters.

“Hunters require heavy-duty tools that can withstand harsh conditions. They also want features that make it faster and easier to clear tree limbs and other brush,” said Rick Constantine, vice president of marketing and general manager for Camillus. “Our new pruning tools are designed and built specifically for hunters and the unique conditions they face in the field.”

Camillus’ Line of Sight pruning tools feature titanium-bonded, non-stick stainless-steel blades, which are up to five times stronger than untreated stainless steel. Titanium bonding also offers enhanced corrosion and adhesion resistance, while maintaining a stronger, sharper edge.

In addition, all of the pruning tools incorporate an ergonomic AirShoc™ handle, which is impact resistant and contains an anti-microbial agent to resist mold and mildew. The handles also feature the popular Prym1 Multi-Purpose (MP) camo pattern, which utilizes the colors and tones of nature, combined with the organic shapes and motion of wildlife, to effectively imitate a predator in the wild.

**-MORE-**

**Camillus Line of Site Product Line:**

- **Bypass Pruner** – This 8-inch pruner can easily cut through a half-inch branch. It incorporates an aircraft aluminum body, which is extremely lightweight and durable.
- **Lopper** – The telescoping lopper can extend 19.5 inches to 25.2 inches and uses high-leverage technology for powerful cutting.
- **Tree Saw** – The 20.5-inch tree saw comes with a 14-inch fixed blade, which provides triple-edge grind cuts on the push and pull. It can also attach to a standard pole for extended trimming. Sheath is included.
- **Folding Branch Saw** – The 15.5-inch folding branch saw uses a seven-inch, triple-edge blade to quickly and easily cut through tough branches. It includes a dual-locking mechanism, which secures the blade in place for safe cutting and storage.

All of Camillus' pruning tools will be on display at SHOT Show 2018, January 23-26 at the Sands Expo Center in Las Vegas (booth #15122). For more information, visit [camillusknives.com](http://camillusknives.com) or call 800-835-2263.

**About Camillus Knives**

Since 1876, Camillus has been supplying the world with reliable, innovative and quality-made knives that have survived the test of time. As one of the oldest knife manufacturers, Camillus has developed a wide array of products for the hunting, fishing, sporting and tactical markets, including folding and fixed blade knives, machetes, multi-tools and more. Camillus products are manufactured using the finest materials and craftsmanship to ensure reliable, high-end performance in the field.
